Part A SET TASK BRIEF

YOU ARE ADVISED TO SPEND 10 MINUTES (plus your additional time allowance) READING THE TASK SCENARIO AND THE ACTIVITIES YOU ARE TO COMPLETE.

YOU MAY MAKE NOTES AND/OR HIGHLIGHT INFORMATION TO USE IN THE COMPLETION OF THE DOCUMENTS YOU NEED TO PRODUCE FOR YOUR TASK.

Task Scenario is on the next page.

TASK SCENARIO

You have been asked to create a database for Smart Art.

The company runs exhibitions in art galleries.

Galleries are either combo or commercial.

A combo gallery is a gallery in the premises of another company. For example a furniture store that displays the art.

Artists show their work at exhibitions in the galleries.

The database will record information about:
- galleries
- artists
- exhibitions.

An exhibition runs for at least three days and no more than ten days.

An exhibition is for a single artist and held in a single gallery.

Task Scenario. continued.

Data kept about the artist includes their surname and the initial of their first name.

The initial must be uppercase.

Look at Figure 1 in the separate Data Book.

An extract of the data the company would like to record is shown in Figure 1.
